Class Rule Interpretation # 148.

Is it permissible to have a carbon fiber headboard, or in place of that a batten as a headboard stiffener?

Yes. The headboard or headboard stiffener may be constructed from, Carbon Reinforced Plastic, Kevlar Reinforced Plastic, Glass Reinforced Plastic, Aluminum, or Steel. The entire headboard shall fit within the dimensions defined in the following diagram # 31.

This Interpretation is effective September 1st, 2010. This Interpretation shall be incorporated into the class rule at the next AGM.
